

First circular

Lithological Meeting

GEOLOGY OF REEFS

JUNE 23-25, 2020,
INSTITUTE OF GEOLOGY FOR KOMI SC UB RAS
SYKTYVKAR, KOMI REPUBLIC, RUSSIA

Meeting Place

The Lithological Meeting "GEOLOGY OF REEFS" will be organized at the Institute of Geology of Komi Science Centre of the Ural Branch of the Russian Academy of Sciences (<http://geo.komisc.ru>).

Meeting website: <http://conf.uran.ru/Default.aspx?cid=reefs>

Scientific program

Topics

- Basic concepts and diagnostic features of organogenous structures;
- Biodiversity and evolution of reef ecosystems;
- Genetic diversity of organogenous structures;
- Microbial carbonates as components of organogenous structures;
- The role of microbiota and fluids in the formation of carbonate buildups;
- A complex analysis of reef formation areas.

Youth School

The leaders are Anna Antoshkina, Valentina Zhemchugova.

Practical seminar

"Diversity of genetic types of rocks of organogenic buildings", with viewing of thin-sections and samples collections. The leaders — Natal`a Matveeva, Lyubov` Shmelyova.

Field Trip

"Paleozoic organogenous buildups of the Ilych River basin, Northern Urals". June 26-July 04, 2020. Number of participants are 9 people. Estimated cost is 650 EUR. Trip leader — Evgenij Ponomarenko.

Important dates

Registration	1 November 2019—15 December 2019.
Abstracts submission	1 November 2019—1 March 2020.
Second circular and program:	15 May 2020.
Post-Meeting Field Trips	26 June—4 July 2020.
